La couleur posée à la main donne vie à ces motifs géométriques inspirés de détails architecturaux anciens et réinterprétés dans un graphisme épuré, contemporain.

Les dessins miniaturisés et les nuances de bleu que laisse filer la main de l'artisane confèrent à cette création un caractère raffiné et précieux.

Цвет дает жизнь этим геометрическим узорам, вдохновленным древними архитектурными деталями и воплощенными в современно минималистском виде.

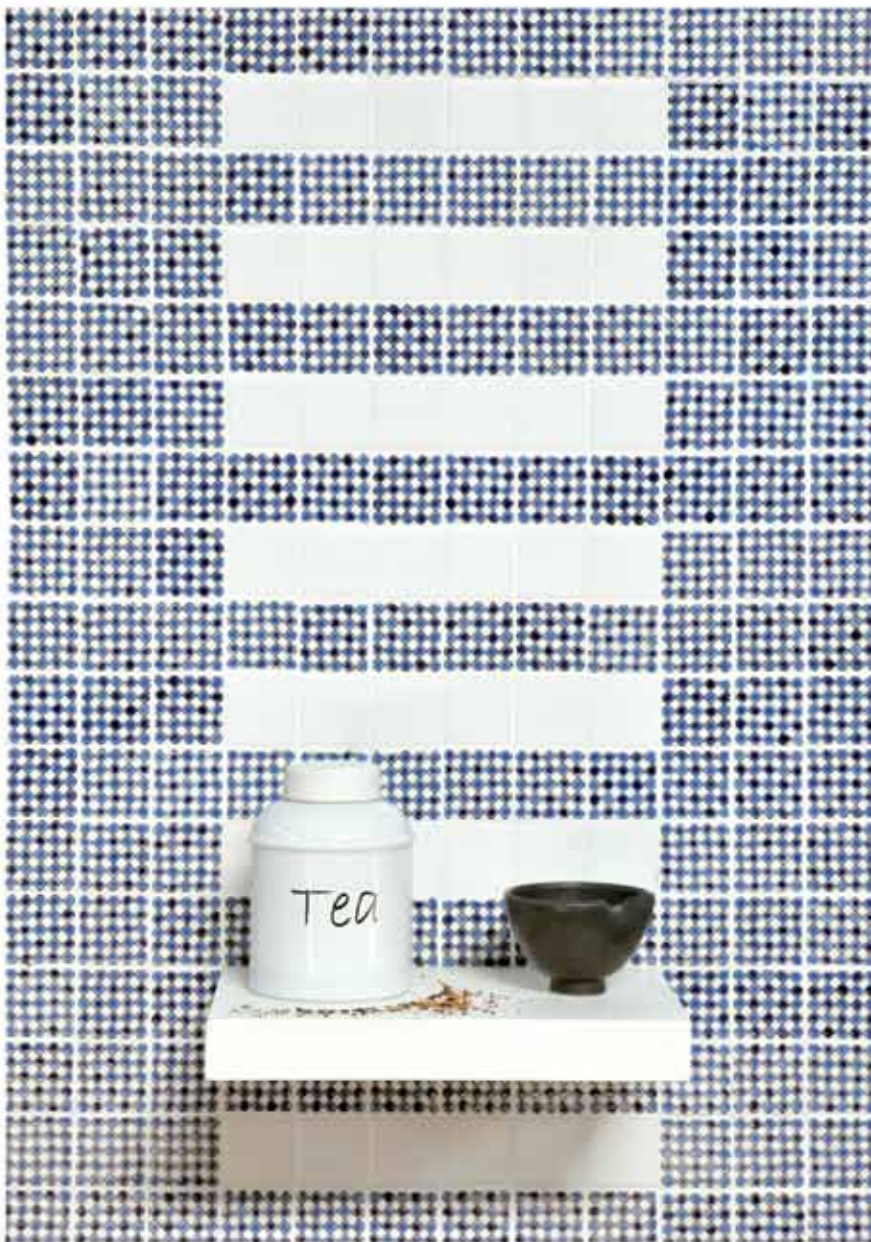

Миниатюрные узоры и синие оттенки, будто созданные руками ремесленника, изысканные и бесценные.

LES GRAPHIQUES[©]

Design dzeta

L'application de la couleur oscillant entre le vide et le plein, confère à ce motif inspiré du patrimoine tunisien toute sa modernité. La pose sur filet offre quant à elle une modularité intéressante qui va de l'insert à la mosaïque 20x20 en passant par la frise. Déclinée dans trois couleurs exaltées par un gris cendre profond, cette ligne contemporaine fait un clin d'oeil subtil à la tradition.

Графическое чередование фона и линий вдохновило нас на применение тунисского наследия в современности. Плитка предполагает различные интересные варианты укладки: в виде вставок, мозаики 20x20 или фриза. Выполненная в трех цветах, включающих утонченный пепельно-серый, эта современная коллекция отдает дань традициям.
